BUNK & DRIVE-ON TRAILERS

Easy loading with extra support.

These bunk trailers make it easy to drive your boat on and off. Long, wide bunks provide optimum support for your hull and make centering your boat during loading a breeze. The trailer's low center of gravity also makes towing easier and more stable.

- Lower ride height
- Bigger 2"x6" bunks for extra hull support on SBW17 and larger
- Easy self-centering design
- Sleek profile for less wind resistance
- Low center of gravity for stability
- Available for boats up to 25' long.

OPTIONAL GUIDE BOARDS
These carpet padded boards help you center your boat, giving you true drive-on centering

BUNK & DRIVE-ON TRAILERS

Model	Maximum Hull Length	Carrying Capacity	Tire Size
B Series: Standard bunk models			
B14-12	To 14'	1200 lbs.	480x12B
